The Link of Times foundation began restoring the Shuvalov Palace, located on the embankment of the Fontanka River, in 2006. The foundation did an incredible amount of work over 7 years to reconstruct the historic appearance of the palace and adapt it for use as a museum. In fact, this was the first comprehensive restoration in the entire 200-year history of the palace.

FWA OF THE DAY

In 2013, we established a design studio that brought various designers, advertising professionals and web developers together. Since then, our team has grown from year to year getting to know new brands and expanding our expertise. Once we had built up our client base and gained sufficient experience, we rebranded the studio into an advertising agency.
